25X1

1. [redacted] Comment. As compared with the last reported period coal imports through Guben rose from a daily average of 132 carloads to one of 146 carloads, while grain imports rose from a daily average of 13 to one of 66 carloads. [redacted]

25X1

25X1

2. [redacted] Comment. The number of empty cars dispatched to the east for grain and hard coal imports was higher than the number of loaded cars passing through Guben during the reported period. It may therefore be expected that imports directed through this border station in the last decade of May were at least as high as during the period under review. [redacted]
